ENGINEERED FRENCH OAK FLOORS

*“A hardwood floor can be our most intimate contact with nature.”*

*Capturing all the characteristics of France, this luxurious and contemporary French Oak engineered collection by Hurford Wholesale, has been carefully chosen to complement any space, be it your home, commercial or retail.*

Elegant Oak collection by Hurford Wholesale is inspired by the beautiful, old-world features of French décor.

The durability, strength and high quality engineered timber floor replicates all the same elements of solid timber flooring. The distinctive knots, grains and texture under foot provides a look and feel that showcases a true appearance.

Hurford Wholesale uses a resilient 7 coat Treffert UV lacquer system that ensures it is stain, scuff, scratch and slip resistant.

Elegant Oak is backed by a 25 Year Construction Warranty.

NATURAL

Elegant Oak is a traditional tongue and groove engineered Oak floor. The flooring is manufactured using a genuine French Oak lamella sourced from forests in France.

Elegant Oak combines a brush textured finish with a chic stain to add a touch of flair to any room without over powering it. The 189mm wide boards have a slight bevel on each edge designed to create depth, adding to the wooden floor charm.

### CONSTRUCTION

*Hurford Wholesale manufactures an exquisite product that we are proud to introduce to the New Zealand market.*

Our French Oak engineered flooring consists of ply veneers glued together in a cross-grain assembly. This process restricts the boards from buckling, cupping or twisting which ensures the construction of engineered flooring to be strong and stable.

Tongue and Groove is a method of fitting similar objects together, edge to edge joints that allow two flat boards to be joined to make a strong single flat surface. This system can easily be installed over many surfaces and will provide an exceptional performing floor.

1. 7 stage, water-based, UV-cured acrylic urethane. Manufactured in Germany by Treffert incorporating Anti-Scratch technology, ensuring a strong and enduring protective layer for everyday wear and tear.
2. Genuine French Oak hardwood lamella wear layer – Elegant 4mm and Première 2mm.
3. Plantation Eucalyptus core is a high quality ply.
4. Veneer backing balance layer secures all the layers together.
