

Hurfords superior kiln drying process helps to minimise lamella movement to help prevent twisting, cupping and checking. This sets us apart from the rest in the market.

AUSTRALIAN NATIVE
BY HURFORD WHOLESALE

Emphasising two of Australia's much loved classic species, Blackbutt & Spotted Gum.

Australian Native provides that organic, natural, warm feeling. The pre-finished range features a square edge profile and an ultra matt finish, to achieve a floor that's earthy and effortless. Manufactured using a low shrinkage and eco-friendly Hevea as the core material and a tough Australian hardwood lamella for the wear layer, produces a product that's consistent in quality and structural stability.

Australian Natives construction also incorporates a licensed Välinge click system, using a single action installation method, which saves time and ensures you can enjoy your new floor instantly.

Utilising the latest in environmentally friendly UV coatings, our 6 coat system delivers a floor finish similar to a stylish oiled floor but with the durability and protection a UV lacquer offers. Australian Native engineered flooring provides a practical yet stylish option suited for day-to-day use in most applications.
